**Seeking PFA Internship –staring July/august 2026**

## SUMMARY

2nd-year Big Data & Cloud Engineering student at ENSET Mohammedia. Won 2 national hackathons (1st place), delivered 3 projects to production. Proficient in full-stack web, Java, Python, and AWS/Huawei Cloud. Looking for a PFA internship to contribute to a real technical project.

## EDUCATION

**State Engineering Degree – Big Data & Cloud Computing** *2024 – 2027*
*ENSET Mohammedia | In progress*

**DEUG – Mathematics & Computer Science** *2022 – 2024*
*Faculty of Sciences, El Jadida | Honours — GPA 16/20 (equiv. 3.7/4.0 US)*

**High School Diploma – Mathematics A** *2022*
*Lycée Chouaib Doukkali, El Jadida | 2nd rank regionally*

## PROFESSIONAL EXPERIENCE

**Developer Intern – Wellness App** *Jul. 2025*
*EKM · Casablanca*

— Delivered a complete online booking platform (interactive calendar, client management, admin dashboard) — deployed and live in production
— Eliminated 100% of manual appointment tracking through an automated scheduling system

**Laravel Developer Intern – Internal Project** *2025*
*Web Development · El Jadida*

— Delivered a functional Laravel web app (MVC, Eloquent ORM, routes) covering all project requirements, shipped to production on time
— Implemented full CRUD system on MySQL database, deployed and validated by client

**Junior Developer – Internal Java Project** *Jan. – Mar. 2025*
*Software Development · El Jadida*

— Delivered a Java/JavaFX application with complete business logic and functional UI
— Reduced regression bugs through structured Git management and a fully documented test suite

## SELECTED PROJECTS

**Gestura – Sign Language Converter —** *Python · MediaPipe · OpenCV · Blender · React*

— Built a complete gesture recognition pipeline on WLASL dataset: real-time hand/pose detection via MediaPipe
— Generated FBX avatar animations (Ready Player Me) via Blender retargeting + React sign language learning interface

**Autonomous Robot – Project Lead —** *C++ · Robotics | National Competition*

— Led 74 students across multiple teams to build and deliver an autonomous C++ robot — demonstrated at national competition

## AWARDS & DISTINCTIONS

— 1st Place – 36h Hackathon – ENSET Challenge
— 1st Place – Hackathon ENIM Rabat – Business Forum
— 2nd Place – Hackathon 3rd Edition – ENSEM Casablanca

## TECHNICAL SKILLS

— Languages: Python, Java, C/C++, SQL, PHP
— Web & Frameworks: React, Node.js, Laravel, JavaFX
— Cloud & DevOps: AWS, Huawei Cloud, Git, Linux
— Data & ML: Scikit-learn, MongoDB, Pandas, NLP

## CERTIFICATIONS

— AWS Academy Cloud Computing & Data Engineering
— HCIA-Cloud Computing V5.5 (Huawei) · Cisco CCNA · Linux Essentials
— Python Essentials 1 & 2 (Cisco)

## LANGUAGES

Arabic (Native) · French (Fluent) · English (Intermediate)
